**With 20 Mbps: the sky is the limit!**

Results may vary dependent on your computer, time day, etc.

# What Internet Speeds Can do for You

## 4-6 Mbps download

- Loads email, web browsing, and all basic Internet tasks
- Bill pay
- Allows for video and music streaming
- Small file sharing

## 10 Mbps download

- Loads email quickly
- Fast web browsing and all Internet tasks
- Bill pay
- 2 devices, online gaming, video and music streaming
- Quick downloads

## 15-20\* Mbps download

- Loads email quickly
- Fast web browsing and all Internet tasks
- Bill pay
- Multiple devices, uninterrupted online gaming, video and music streaming (without buffering)
- Quick, efficient downloads

*\*20 Mbps allows for the quickest speed and downloads on multiple devices.*
