

WHAT SACRED WIND CUSTOMERS SAY:

“Sacred Wind Communications is a unique company. They listen to their customers and invite input from Navajo Chapter leaders about their services and network plans. This is a company with heart – they respect our culture and have been very supportive of the communities they serve, proving they are willing to invest in improving the lives of the people.”

Virginia Ballenger
Red Rock Chapter Vice President

“Solar energy has been provided to our community people that don’t have access to a power line, thanks to the help of Sacred Wind Communications.”

Jimmy R. Secatero Sr.
Liaison for To’Hajilee Chapter

“Sacred Wind Communications has always responded positively to our many requests.”

Grace M. Boyne
Tse’Lichii Chapter Secretary-Treasurer

“Sacred Wind Communications was the first company to introduce high speed broadband service and computer training to the Eastern Agency of the Navajo Nation. They have lived up to their commitments and have improved the quality of life on Navajo Lands. They listen to their customers and invite input from Navajo Chapter leaders about their services and network plans.”

Arthur Bavaro
Community Services Coordinator

“When I see someone or a group of people gain this type of honor and respect from the Navajo People and other Nationality I can see that something was done that involved an extreme and positive effort to make this possible. At this point I can only conclude that Sacred Wind has accomplished such and was able to further succeed in providing an outstanding customer relationship and service for the people they’ve worked with. Certainly, Sacred Wind gave their care and quality work to the Navajo People they provided service to. I must say they worked very hard, expressed a lot of care and sacrifice a tremendous amount of personal time to understand the culture and tradition of Navajo people.”

Zander Shirley
Retired Navajo Nation Government
