

# **ALWAYS CALL BEFORE YOU DIG**

**One easy and free call  
gets your utility lines  
marked and helps  
protect you from injury  
and expense.**

**Know what's below.  
Call before you dig.**

**As a homeowner or business owner, why would I call 811?**

Every digging project requires a call to 811. Hitting an underground utility line while digging can harm the environment, cause serious personal injuries, disrupt service to an entire neighborhood and potentially incur fines and repair costs for yourself or your company.

**When should I call 811?**

- Installing a rural mailbox
- Putting in a fence
- Planting trees or shrubbery
- Building a patio or deck
- Excavating a new garden area

*\* These are a few common examples of when to call. You or your contractor should call at least 2 working days before any digging project.*
